Portfolio: <https://arun-prasad27.github.io/My-Portfolio>

SUMMARY

Frontend Developer with experience building responsive web applications using React, JavaScript, HTML, and CSS. Skilled in developing interactive UI components, integrating REST APIs, and managing application state. Hands-on experience with backend development using Node.js and Express. Seeking a Junior Frontend Developer role to contribute to modern web applications and continue growing toward full-stack development.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React, Tailwind CSS, Responsive Design, Flexbox, CSS Grid

Backend: Node.js, Express.js, REST APIs

Libraries: Axios, jQuery

Tools: Git, GitHub, VS Code, Render, GitHub Pages

Concepts: Component Architecture, API Integration, Local Storage, Environment Variables

PROJECTS

SmartTask Pro – Full-Stack Task Management Application

GitHub: <https://github.com/Arun-prasad27/smarttask-pro>

Live Demo: <https://smarttask-pro.vercel.app>

Tech Stack: React, JavaScript, JSON Server (REST API), LocalStorage

- Developed a responsive task management application with authentication and protected routes.
- Built reusable React components using functional components and hooks.
- Designed and integrated REST API endpoints to enable task creation, updates, deletion, and UI synchronization.
- Implemented task filtering, priority handling, and status tracking for workflow management.
- Managed user sessions and persistence using localStorage.

Weather API Application – Backend Project

GitHub: <https://github.com/Arun-prasad27/Weather-App>

Tech Stack: Node.js, Express, Axios, EJS, RapidAPI

- Built a Node.js and Express backend application to fetch real-time weather data.

- Integrated RapidAPI weather service using Axios for external API communication.
- Implemented server-side rendering using EJS templates.
- Secured API keys using environment variables (.env).

Mind Games – Interactive JavaScript Memory Game

Tech Stack: JavaScript, jQuery, HTML, CSS

- Developed a browser-based memory game inspired by the Simon game.
- Implemented sequence generation logic and level progression using JavaScript arrays.
- Added animations, sound effects, and DOM manipulation to improve user interaction.

ACHIEVEMENTS

- Built and deployed multiple web applications integrating REST APIs and authentication.
- Developed responsive UI applications using modern React component architecture.
- Experienced in deploying frontend and backend applications on platforms like Render and GitHub Pages.

EDUCATION

Bachelor of Computer Applications (BCA) – Periyar Maniammai Institute of Science & Technology (2015 – 2018)

PROFESSIONAL EXPERIENCE

Sales Executive – Bajaj Finance Limited (Nov 2022 – Jul 2025)

- Assisted customers with financial service applications and ensured accurate data handling.
- Maintained compliance with internal financial processing systems.

Adjudication Processor – Exela Technologies (Dec 2019 – Dec 2020)

- Processed and validated high-volume document workflows with strong attention to detail.
