PROFESSIONAL SUMMARY

Frontend-focused developer specializing in React and modern JavaScript with hands-on experience building responsive web applications, authentication flows, protected routes, and REST API integrations. Familiar with scalable frontend architecture, reusable component systems, and modern development workflows. Currently expanding toward full-stack development using Node.js, Express, React Query, Zustand, and Supabase.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React, Tailwind CSS, Responsive Design

State Management & Data Fetching: React Query (TanStack Query), Zustand

Backend & Database: Node.js, Express.js, REST APIs, MongoDB (Basic), Supabase

Tools & Platforms: Git, GitHub, VS Code, Vercel, Render, GitHub Pages

Concepts: Authentication, Protected Routes, CRUD Operations, API Integration, Reusable Components, Responsive UI Design

PROJECTS

SmartTask Pro – SaaS Task Management Application

Tech Stack: React, JavaScript, REST API, Authentication, Protected Routes

- Developed a responsive SaaS-style task management application using React.
- Implemented authentication flow and protected routes for secure user access.
- Built Kanban-style workflow with reusable component architecture.
- Integrated REST APIs with efficient UI state management.
- Improved responsiveness and user experience across devices.
